

DESIGN • BUILD • SINCE 2002

Kenmar General Contracting, LLC is an SBA 8(a) Woman Owned Design-Build General Contracting Company founded in 2002 with offices in Louisiana and Florida. Our core competency is design-build renovation of existing structures including occupied and unoccupied Federal Government, Local Government, Commercial Office, Hospitality, Medical and Residential Buildings. Kenmar GC holds a Louisiana Building Construction License, Florida Certified General Contractor License, Florida Asbestos Contractor License, Florida Class A Air Conditioning License and an EPA Lead-Safe Renovator Certification. Since 2010 Kenmar GC has completed Design-Build Federal renovation projects in occupied facilities for NAVFAC SE, U.S. Coast Guard, NOAA, Joint Interagency Task Force South (JIATFS), Army Special Forces, FAA and the Navy's Military Sealift Command as far North as Buffalo, NY and as far west as Houston, TX as a prime.

Our 8(a)/WOSB/EDWOSB firm brings 15 years of design-build experience to government customers along with outstanding past performance, a perfect safety record and a seasoned Federal design-build construction & renovation team. Kenmar GC continues to strengthen our Federal design-build construction and renovation qualifications by recently bringing in house a former NAVFAC Engineering Technician with HVAC and a Master Electrician license to oversee field operations. Kenmar GC also has in house design capability with an Architect on staff.

Kenmar General Contracting, LLC is committed to delivering quality services by the most highly qualified people and building long-term relationships based on safe construction practices, integrity, innovation, performance, team work and client satisfaction. We are proactive in finding and implementing solutions for our clients that best achieve their goals by working as a team and by consistently self-performing the majority of the work of the project.
